Randy - Here are the #s for my biologists who are on the way to Farmington this morning. I think they can probably answer most of your questions about rafts, access, etc. or tell you who to contact.

Scott Durst, FWS San Juan River Recovery Program - Personal Phone/Ex. 6 cell
Nathan Franssen FWS San Juan River Recovery Program - Personal Phone/Ex. 6 cell

Here's the contact info. for the SJR Recovery Program's UT field crew. Like I mentioned, they have a week-long river trip planned starting on Friday and Katie

offered to do any sampling we need done while they are out (if there are not advisories for them to stay out of the water that is).

Katie Creighton
Native Aquatics Project Leader
Utah Division of Wildlife Resources
Moab Field Station
1165 S. Hwy 191 Suite #4
Moab, UT 84532
435.259.3780
katherinecreighton@utah.gov

Hope this info. is helpful. Give me a call if you need something else.

Sharon,

I'm the Incident Commander for EPA Region 9 working on the Gold King response, but mainly focused on the San Juan and the Navajo Nation impacts. I'm working closely with Steve Austin of Navajo Nation EPA water, assisting with sampling activities from Farmington to Mexican hat. We'd like to engage with you to see how we can assist or augment sampling teams in your areas of interest. I'd also like to engage your GIS lead for sharing of and using data. I'm in route to Farmington this morning and expect to be there around noon.

I look forward to speaking with you.

Thanks.
